Molecular and Cellular Biochemisty **158**: 195–197, 1996.

Index to Volume 158

Anastassiades TP, Chopra RK and Wood A: Exogenous glycosaminoglycans (GAG) differentially modulate GAG synthesis by anchorage-independent cultures of the outer cells from neonatal rat calvaria in the absence and presence of TGF-β 25–32
Anchordoguy TJ, *see* Hardewig I *et al.*

Balasubramanian N, *see* Bhuvarahamurthy V *et al.*
Bhuvarahamurthy V, Balasubramanian N and Govindasamy S: Effect of radiotherapy and chemoradiotherapy on circulating antioxidant system of human uterine cervical carcinoma 17–23
Brand MD, *see* Lionetti L *et al.*

Cambiazo V, *see* Henríquez JP *et al.*
Chaturvedi G, *see* Gupta GS *et al.*
Chaudron I, *see* Demaison L *et al.*
Chopra RK, *see* Anastassiades TP *et al.*
Crawford DL, *see* Hardewig I *et al.*

Davidonis GH, *see* Jacks TJ.
Demaison L, Moreau D, Martine L, Chaudron I and Grynberg A: Myocardial ischemia and *in vitro* mitochondrial metabolic efficiency 161–169
Ding XZ, Smallridge RC, Galloway RJ and Kiang JG: Rapid assay of HSF1 and HSF2 gene expression by RT-PCR 189–192

Fernandez C, *see* Panagakos FS *et al.*

Galloway RJ, *see* Ding XZ *et al.*
Ganguly NK, *see* Ghosh S *et al.*
Ghosh S, Mittal A, Vohra H and Ganguly NK: Interaction of a rat intestinal brush border membrane glycoprotein with type-1 fimbriae of *Salmonella typhimurium* 125–131
Gill S, *see* Sunder S *et al.*
Govindasamy S, *see* Bhuvarahamurthy V *et al.*
Grover AK, *see* Misquitta CM *et al.*
Grynberg A, *see* Demaison L *et al.*
Gupta GS, Chaturvedi G and Joshi A: Sex dependent immune responses by allogenic LDH isozymes 115–119

Hanahisa Y and Yamaguchi M: Characterization of calcium accumulation in the brain of rats administered orally calcium: The significance of energy-dependent mechanism 1–7
Hand SC, *see* Hardewig I *et al.*
Hardewig I, Anchordoguy TJ, Crawford DL and Hand SC: Profiles of nuclear and mitochondrial encoded mRNAs in developing and quiescent embryos of *Artemia franciscana* 139–147
Henríquez JP, Cambiazo V and Maccioni RB: Tubulin domains for the interaction of microtubule associated protein DMAP-85 from *Drosophila melanogaster* 149–159

Iossa S, *see* Lionetti L *et al.*

Jacks TJ and Davidonis GH: Superoxide, hydrogen peroxide, and the respiratory burst of fungally infected plant cells 77–79
Joshi A, *see* Gupta GS *et al.*

Kemp GJ, *see* Odoom JE *et al.*
Khurana ML and Pandey KN: Atrial natriuretic peptide inhibits the phosphooinositide hydrolysis in murine leydig tumor cells 97–105
Kiang JG, *see* Ding XZ *et al.*
Kishi S, *see* Yamaguchi M *et al.*
Kumar S, *see* Panagakos FS *et al.*

Lionetti L, Iossa S, Brand MD and Liverini G: Relationship between membrane potential and respiration rate in isolated liver mitochondria from rats fed an energy dense diet 133–138
Liverini G, *see* Lionetti L *et al.*

Maccioni RB, *see* Henríquez JP *et al.*
Martine L, *see* Demaison L *et al.*
Masson J-Y, *see* Ramotar D.
Miller WT, *see* Xu B.
Misquitta CM, Samson SE and Grover AK: Sarcoplasmic reticulum Ca^{2+}-pump density is higher in distal than in proximal segments of porcine left coronary artery 91–95
Mittal A, *see* Ghosh S *et al.*
Moran A and Turner RJ: Evidence that quantal Ca^{2+} release in HSG cells is not due to 'all-or-none' release from discrete Ca^{2+} stores with differing sensitivities to IP_3 53–56
Moreau D, *see* Demaison L *et al.*

Odoom JE, Kemp GJ and Radda GK: The regulation of total creatine content in a myoblast cell line 179–188

Panagakos FS, Fernandez C and Kumar S: Ultrastructural analysis of mineralized matrix from humam osteoblastic cells: Effect of tumor necrosis factor-alpha 81–89
Pandey KN, *see* Khurana ML.

Radda GK, *see* Odoom JE *et al.*
Raghow R, *see* Wang Q.
Raju RVS and Sharma RK: Coenzyme A dependent myristoylation and demyristoylation in the regulation of bovine spleen N-myristoyltransferase 107–113
Ramotar D and Masson J-Y: *Saccharomyces cerevisiae* DNA repair processes: An update 65–75

Samson SE, *see* Misquitta CM *et al.*
Sharma RK, *see* Raju RVS.
Singh AJ, *see* Sunder S *et al.*
Singh B, *see* Sunder S *et al.*
Smallridge RC, *see* Ding XZ *et al.*
Smith JM and Wahler GM: ATP-sensitive potassium channels are altered in ventricular myocytes from diabetic rats 43–51
Sunder S, Singh AJ, Gill S and Singh B: Regulation of intracellular level of Na^+, K^+ and glycerol in *Saccharomyces cerevisiae* under osmotic stress 121–124

Takahashi H and Yamaguchi M: Activatory effect of regucalcin on hepatic plasma membrane (Ca^{2+}-Mg^{2+})-ATPase is impaired by liver injury with carbon tetrachloride administration in rats 9–16
Turner RJ, *see* Moran A.

Vohra H, *see* Ghosh S *et al.*

Wahler GM, *see* Smith JM.
Wang Q and Raghow R: Okadaic acid-induced transcriptional downregulation of type I collagen gene expression is mediated by protein phosphatase 2A 33–42
Wood A, *see* Anastassiades TP *et al.*

Xu B and Miller WT: Src homology domains of v-Src stabilize an active conformation of the tyrosine kinase catalytic domain 57–63

Yamaguchi M and Kishi S: Zinc compounds inhibit osteoclast-like cell formation at the earlier stage of rat marrow culture but not osteoclast function 171–177
Yamaguchi M, *see* Hanahisa Y.
Yamaguchi M, *see* Takahashi H.
